## Sports, Academics and other FAQ's

*Band is a Yearlong Class, and does not interfere with after-school activities! We highly encourage students to try an instrument in 6th grade as it is the only opportunity to try the program in middle school. Additionally, Band in no way effects your long term academic plans! All students who participate in middle school band are able to quickly complete their language requirements in high school, participate in other arts programs, and meet all of the requirements for selected special programs.*
